

Bolt.Access

Bolt.Reader

BOLT-READER

OSDP v2. Card, phone, IP65.

Secure-channel OSDP on the controller's reader bus. Reads DESFire and Bolt.Tap, single-gang or surface, powered from the controller or 12 V DC.

A slim reader by the door. Staff tap a card or their phone, and it's rated for outside as well as in.

- Card or phone, one tap.
- Indoors or out.
- Encrypted all the way to the controller.
